

FactLens AI — Sample Verification Document

This document is designed for testing FactLens PDF extraction, claim extraction, and evidence-backed verification.

Test Claims

#	Statement
1	The Earth orbits the Sun.
2	Water freezes at 0 degrees Celsius at standard atmospheric pressure.
3	The Eiffel Tower is located in Paris, France.
4	The Pacific Ocean is the largest ocean on Earth.
5	Mount Everest is the highest mountain above sea level.
6	The Moon is a natural satellite of Earth.
7	The Great Wall of China is visible from the Moon with the naked eye.
8	The capital of Australia is Sydney.

How to use this PDF

Upload this file through the FactLens PDF verification feature. The expected pipeline is: PDF upload → text extraction → factual claim extraction → live verification → results displayed in the frontend.

Development Notes

This sample intentionally contains both straightforward factual statements and commonly repeated claims that should be checked against reliable evidence. It is a test document, not a source of authoritative facts.

FactLens should not mark a claim as verified merely because the claim sounds plausible. The verification layer should use evidence and return an explicit verdict such as Verified, Partially true, False, or Unverifiable.
